

Unit 3 : How mobile phones and social networks affect our lives.

Type of document	Source	Who/Where/When/What	Description	Analysis	Personal reaction
Song 'Get off the Phone'	Youtube – singers = Rhett and Link, an American internet entertainment duo	<p>People in various settings (street, restaurants, houses) using their mobiles phones.</p> <p>A man and a couple in a restaurant. A teenager and his family, a dad at home, people watching a street performance.</p>	<p>We see how mobile phones disrupt their lives : what they are doing instead of what they should be doing. For instance, the man in the restaurant is taking of photograph of his apple pie instead of eating it. The teenager is texting instead of taking part in the family game night.</p>	<p>In this song, Rhett and Link make fun of our bad habits regarding mobile phones. They want to show that we are addicted to social networks. We devote too much time to texting and making phone calls, and not enough to spending time with our family and friends.</p>
